## 10 killed in cartoons protest

\$11.5-M bounty  
for cartoonists

TEHRAN—EIGHT MEN AND ONE WOMAN KILLED AT LEAST 10 people and wounded dozens more after around 1,000 demonstrators defaced Saudi cartoonists in Baghdad in protest against the Prophet Muhammad cartoons published in European newspapers.

They also broke glass and threw the ink and glass at the demonstrators.

Witnesses said the police did not use force to disperse the protesters, but they did use tear gas to clear the area.

The police said they had arrested 10 people and were looking for more.

# Bird flu lands in Egypt, likely has hit France

1/25 SYDNEY (AP) — A new strain of bird flu virus has been found in Egypt, and it is likely that the virus has also hit France, according to a report from the World Health Organization (WHO).

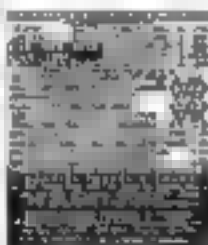

The WHO report, dated January 24, says that the virus was found in a dead bird in Egypt. The virus is a new strain of the H5N1 virus, which is known to cause severe illness in humans.

The WHO report also says that the virus has been found in birds in France. The report says that the virus was found in a dead bird in France, and that the virus is likely to have been brought to France from Egypt.

## Despite ordeal, OFW still pushes luck

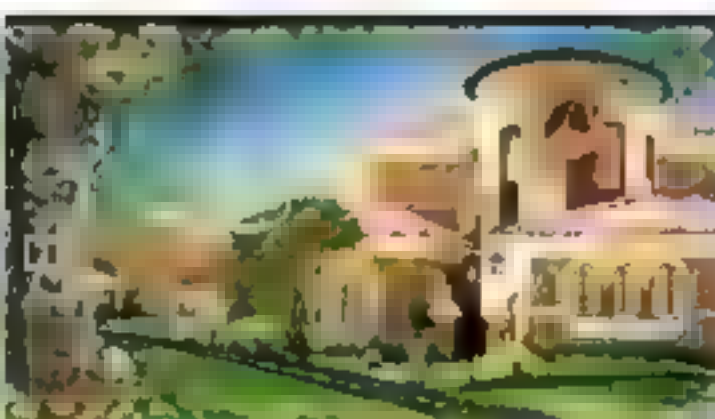

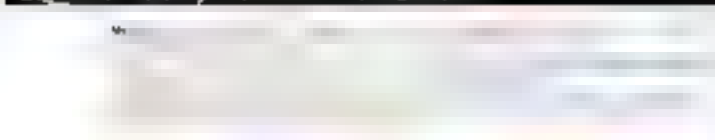

By Gary M. Smith

ST. LOUIS, Mo. (AP) — A woman who was held captive for nearly two years in a remote village in the Philippines has returned home, but she says she still has a long way to go to recover from the ordeal.

# Abused women find hope at the Haven

By [Name]

MANILA, Philippines — For many women, the Haven is a place of refuge. It is a place where they can find safety and support. The Haven is a non-profit organization that provides shelter and counseling for women who have been victims of domestic violence. The Haven has been operating for several years and has helped many women in need. The Haven is a place where women can find hope and a new beginning.

Philippine Daily Inquirer

During the night with a big heart

By [Name]

MANILA, Philippines — The night is dark and quiet. A group of women are sitting in a room, waiting for their turn to be heard. They are all looking at the floor, their faces filled with sadness and despair. The room is dimly lit, and the women are huddled together, seeking comfort in each other's presence. The night is long and lonely, but the women are not alone. They are at the Haven, a place where they can find hope and a new beginning.

## Minoza 8 down as rains fall; injured Rosales calls it quits

Figure 1 is a line graph showing the effect of the concentration of the inhibitor on the rate of polymerization. The x-axis is labeled "Concentration of inhibitor (mole/l)" and ranges from 0 to 0.001. The y-axis is labeled "Rate of polymerization (mole/l·hr)" and ranges from 0 to 0.001. There are two curves: one labeled "No inhibitor" which starts at (0, 0.001) and decreases to (0.001, 0.0005); and another labeled "With inhibitor" which starts at (0, 0.001) and decreases more sharply to (0.001, 0.0001).

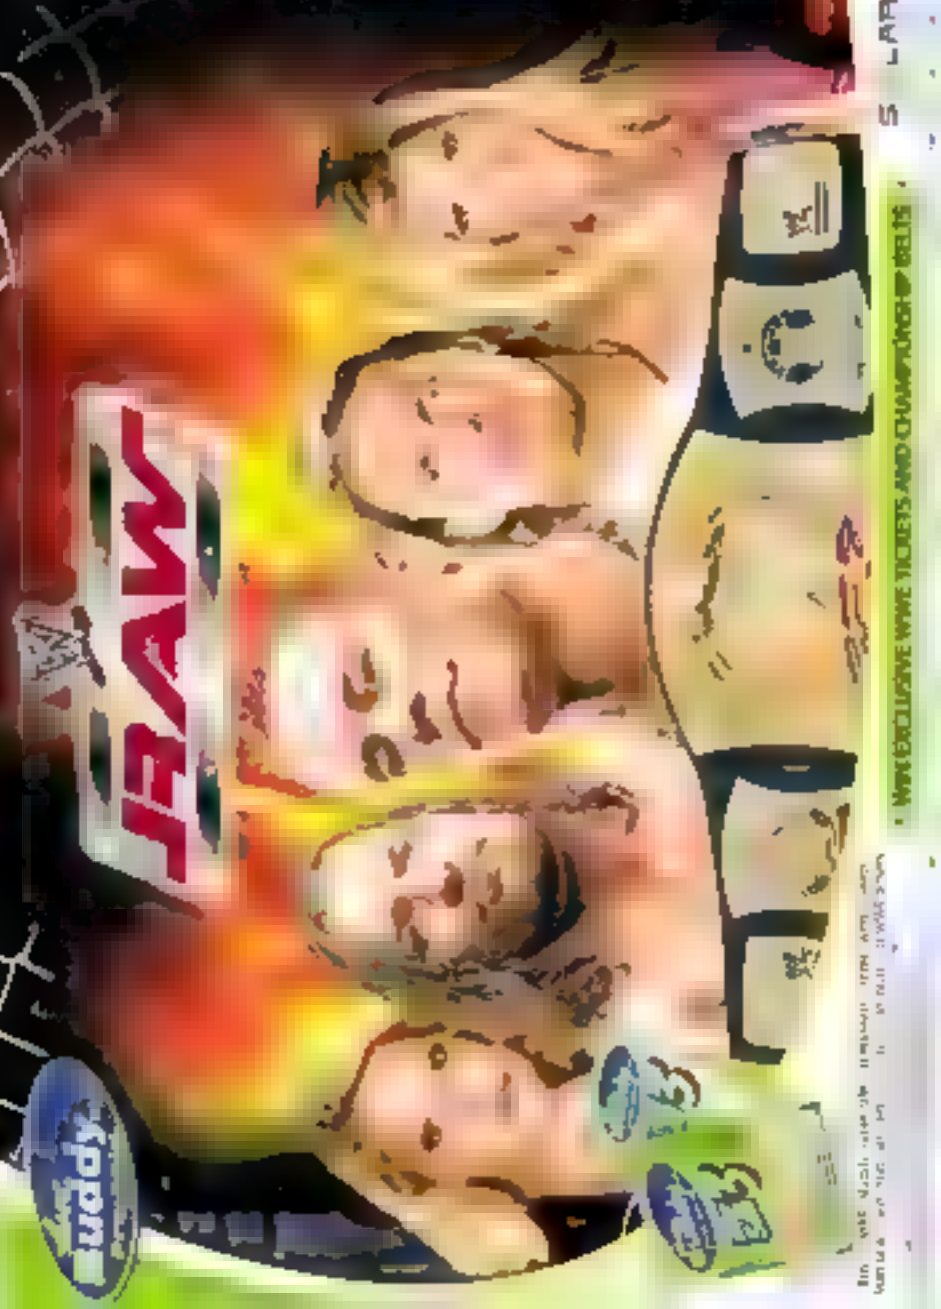

Figure 1 consists of four scatter plots arranged in a 2x2 grid. Each plot has 'Number of children' on the x-axis (ranging from 0 to 10) and 'Number of children in the household' on the y-axis (ranging from 0 to 10). The top-left plot shows a positive correlation, the top-right plot shows a negative correlation, the bottom-left plot shows a positive correlation, and the bottom-right plot shows a negative correlation.

**I**n the past few years, I have had the opportunity to work with many different groups of people. One of the most interesting was a group of young people who were interested in learning about the history of their community. They wanted to know more about the people who lived there before them and the events that shaped the area. We decided to start by looking at the early settlers and how they made their way in a new land. This led us to explore the challenges they faced and the ways they overcame them. It was a fascinating journey that brought us closer to understanding our roots and the place we call home.
